EDUCATION

CBS Group of Institutions

Bachelor of Technology in Computer Science and Engineering

Jhajjar, Haryana

Aug. 2023 - May 2027

PROJECTS

Intense Learners - Learn With Intensity | Next.js 14, TypeScript, Prisma, NextAuth, Brevo Dec. 2025 - Present

- Designed and developed a full-stack e-learning platform for students and teachers with role-based access (STUDENT, TEACHER, ADMIN).
- Built authentication and account workflows: registration, login, password reset (Brevo transactional emails), and role-specific sessions.
- Implemented teacher dashboard: create/manage courses, modules, lectures, assignments, video folders, and assignment grading.
- Built student dashboard: enrollments, lecture/video playback with progress tracking, assignment submission, and doubt-raising.
- Developed admin panel for user management, content moderation (notes, videos, assignments, doubts), and payment records.

Waste2Wealth App | React Native with TypeScript, Firebase

July 2025 – Sep. 2025

- Transform organic waste into compost while establishing an e-commerce platform for sustainable products.
- Bridge the waste treatment gap by collecting both biodegradable and non-biodegradable waste and converting them into valuable resources.

TechVision (UI Demo) | Next.js, TypeScript, Tailwind CSS, shadcn/ui, Aceternity UI

June 2025 - June 2025

- Built a high-fidelity UI demo to showcase modern web design patterns and component aesthetics.
- Implemented polished layouts, animations, and micro-interactions using shadcn/ui components and Aceternity UI effects
- Focused on responsive design, dark mode, and accessibility; no backend or business logic implemented.

ACHIEVEMENTS

Matrix-Hackathon

Sep. 2023 – Sep. 2023

- Collaborated with a team to design and develop an innovative solution within a limited time frame.
- Gained hands-on experience in problem-solving, teamwork, and applying technical skills to real-world challenges.
- Learned new technologies, tools, and approaches to build scalable and creative projects under pressure.

SIH Internal Hackathon

Sep. 2025 - Sep. 2025

- Developed an Android application that promotes waste management and recycling by converting waste into useful resources.
- Implemented features for waste categorization, collection requests, and eco-reward tracking.
- Secured **7th position** among multiple competing teams.
- Strengthened skills in **Android development, UI design, and problem-solving under time constraints.**

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript / Typescript, SQL

Web Development: HTML, CSS, React, Next.js, Node.js, Express.js

Mobile App Development: React Native, Expo

Backend & Cloud Services: Firebase, EmailJS, Brevo, NextAuth

Databases: MySQL, SQLite, PostgreSQL

Tools & Technologies: Git, GitHub, VS Code, Android Studio, Prisma, Vercel
